

**PCB O-leading:**

PCB is a printed circuit board. It is a flat board of insulating material with conductive patterns on it. It is used to mount electronic components and connect them. We are a professional PCB manufacturer. We have a state-of-the-art factory and a team of experienced engineers. We can provide you with high-quality PCBs at a competitive price. We are located in Shenzhen, China. We have a 24-hour service center. We can provide you with a free quote. We are a professional PCB manufacturer. We have a state-of-the-art factory and a team of experienced engineers. We can provide you with high-quality PCBs at a competitive price. We are located in Shenzhen, China. We have a 24-hour service center. We can provide you with a free quote.

**COPPER PLATE HOLES MINIMUM .025 AVG .020MIN .. HOLES MAY NOT NOT PLUGGED**

Material	FR-4 (Standard))	Thickness	0.50Z-50Z
Thickness	0.2mm	Drill Hole	0.2mm
Surface Treatment	OSP / HASL	Plating	0.1-5mm
Quantity	10PCS-100PCS	Weight	0.01kg -5kg
Lead Time	7-12days	Price	\$ 0.1- \$ 10
Design	0.01m3-10m3		

**PCB & Components**

Quantity	16
Lead Time	7-12days
