Automatic temperature measurement and disinfection

Effectively avoid cross infection

Align the temperature measuring probe and the liquid outlet with the palm of your hand to detect the temperature and automatically sterilize the liquid

Extremely fast temperature measurement

Infrared sensor

Automatic alarm function

When the measured body temperature exceeds the preset alarm temperature, the device will issue an alarm to remind the surrounding people

High temperature alarm

Accurate measurement

accurate measurement, fast and efficient, stronger
environmental adaptability

Large-capacity disinfectant used longer

1000ML large amount of disinfectant solution, effectively inhibit bacteria, the inhibition rate is as high as 99.9%.
Effectively take care of you and your family's health

°C/°F temperature unit can be selected

Switch easily

Self-developed core motherboard chip

High-performance, low-power self-developed motherboard
greatly improves product stability and operating capability

The inner core is more powerful

K9

Smart power saving & auto wake up

K9 has intelligent power saving and automatic wake-up function, which can save more resources

Low energy consumption, more economical

Visualization design of disinfectant

The side adopts a transparent design to visualize the use of disinfectant, and add liquid at any time according to the use

Exploded view

Concise appearance design
